As frontline medical workers, EMTs, custodial staff, and others are facing the frightening possibility of infection while performing essential duties. To do our part in the fight against the COVID-19 pandemic, the Bar Association of San Francisco and the Justice & Diversity Center are leading a group of Bay Area lawyers and organizations to provide legal help to frontline workers in need.

To help first responders protect themselves and their families, volunteer attorneys and experienced trust and estate lawyers stand by to help with emergency planning needs, including temporary powers of attorney, health care directives, and wills.
