Community Organization Representation Project (CORP)

# **Fiscal Sponsorship 101: Understanding Your Rights and Protecting Your Project**

**Friday, July 18, 2025 | 1 - 2:30 p.m. PDT | Via Zoom**

Fiscally sponsored projects face unique vulnerabilities when their sponsor organization encounters financial distress or other challenges. This webinar will provide practical guidance for nonprofit projects navigating fiscal sponsorship relationships, with a focus on understanding their options when the relationship encounters roadblocks and building stronger protections for the future.

What we'll cover:

- Understanding the landscape - How fiscal sponsorship works and what happens when sponsors fail
- Making sense of a difficult situation – Options and realistic expectations about recovery
- Building better agreements – What to look for in a fiscal sponsor agreement that can protect your project in the future
- Planning ahead - Questions to ask potential sponsors and due diligence that can prevent future problems

This session is designed for leaders, board members, and staff of fiscally sponsored organizations who want to better understand their rights and build more resilient sponsorship relationships moving forward.
